

Dec. 7, 2010 Meeting at Laguna Env
need to understand native groundwater
thru ESI.

Radiation Safety Class
HRS training

We will resample some locations, radio
activity levels, new locations & some new wells

Harold Johnson Utility authority who
monitor drinking water wells.

Paguate wells are not in the ore body —
lava tube near the dam

Marvin requested subsidence evaluation
especially on the road - should make note
of these for ROD deficiency.

* Excellence Award for Laguna Moll word
misspelled "list should be first.
